

WHAT WILL BE THE MAIN FOCUS BY ZISSOR

- ▶ 3 main focus areas for our developing
 - ✓ A new analyzing module
 - ✓ Module based offering
 - ✓ Next generation of our page and article segmentation

WHAT WILL BE THE MAIN FOCUS BY ZISSOR

- ▶ New data extraction and search techniques make use of Big Data easier and a new Analyze module will efficiently extract, combine and present data plus content from Big Data
- ▶ System providers will need to adopt to your increasing complexity of systems and solutions by making the deliveries component based and more flexible
- ▶ Further development on our already advanced segmentation module by using more text analytic functionality and more images classifications functionality, together with AI techniques
